Primary Examiner

The following is an examiner's statement of reasons for allowance: The prior art fails to teach a system for identifying and reporting a presence of a substance, among other features, comprising: a deployable data collection mechanism for collecting data for identifying the substance; a position determining mechanism for determining an actual geographic location of the data collection mechanism; a database having a plurality of geographic locations with respective local reporting authorities and respective local reporting policies so that the data collection mechanism can be used for identifying an appropriate local reporting authority and appropriate local reporting policy; and a transmitter for transmitting the actual geographic location and the collected data and to contact the appropriate local reporting authority in accordance with the appropriate local reporting policy.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
